

# KEEPING YOUR STORES SAFE & SECURE

iQSafely

INTELLIGENT VISITOR MANAGEMENT

## Improve Customer Experience & Reduce Risk

We are committed to helping organisations keep their staff and regular visitors safe throughout and beyond the COVID-19 Pandemic.

iQSafely helps you facilitate social distancing while managing your occupancy limits accurately and effectively. We remove the guesswork out of occupancy management and reduce risk.

## How many people are in your stores, right now?

iQSafely helps you effortlessly comply with the latest Social Distancing guidelines while enabling you to have an oversight of your occupancy at any time of the day.

Designed to be a contact free and fully automatic solution, iQSafely helps you encourage social distancing at your locations and prevent visitor congestion cost effectively.

## Enable Social Distancing and manage occupancy limits effortlessly:

To purchase iQSafely or to request more information, contact us at [enquiries@iqsafely.com](mailto:enquiries@iqsafely.com) or give us a call +44 (0) 845 8620040

**Live Occupancy Control:** iQSafely helps you promote social distancing in your stores while giving you oversight of your occupancy at all times of the day.

**Automatic People Counting & Alert System:** Sensors installed in the doorways automatically count customers as they enter and exit your premises. If maximum occupancy has been reached a brief audio alert is generated.

**Queue Management:** Manage the flow of customers throughout your store, without the need for a dedicated member of staff.

**Traffic Light System:** The actual count of visitors is constantly checked against the pre-set maximum. Traffic light directs the flow of visitors, if pre-set maximum occupancy is exceeded the traffic light will turn red until the occupancy has decreased.

## Why choose iQSafely?

Remove all guesswork from tracking occupancy

Simple to adjust occupancy limit throughout the day

Quick & simple installation  
No specialist skills required

Prevent visitor congestion and manage visitor flow

Manage your occupancy cost-effectively

Effortlessly comply with latest guidelines
